REDINGTON & CO.'S COLUMN.

REDINGTON & CO.'S ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.
As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.
It is also an excellent remedy for females, who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.
It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea sickness, or other causes. It is also valuable as an emetic, for the relief of Constipation, Neuritis, etc.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PEREAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University of Queen's College, and Physician of the St. John Baptist Society of San Francisco.

Dr. PEREAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco, Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

Dr. PEREAULT's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues. Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, fainting, coughs and slow fever; while some have external rheumatic pains, and numbness of the body. Some of the most common symptoms are pimples in the face and acting in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PEREAULT, either in person or by letter, as he will guarantee a cure, without Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Stricture, Bubo Ulcers, Cancerous Eruptions, etc., will be treated successfully. All Syphilis and Mercorial Taints entirely removed from the system.

Dr. PEREAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.
Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

Dr. PEREAULT is the only agent in California for Dr. BOYD'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and all other ailments in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

A safe distance can be cared at home, by addressing a letter to Dr. PEREAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 974, P. O., San Francisco, stating the case as minutely possible, general habits of living, occupation, etc., etc.

BLANKS FOR SALE AT THIS OFFICE.

SEM-WEEKLY ENQUIRER.

A CLEAR-HEADED COURT.—A Memphis lawyer relates, if we may rely upon the statement of the Memphis Bulletin, that while in Carroll county lately, he had attended to the preliminary trial of a man before a county magistrate, charged with stealing corn from a neighbor's crib. The evidence went to show that the defendant had been found with his hand in an aperture of the crib, safely fastened by a steel trap which the owner set for the purpose of catching the thief who had been preying upon his grain. It was also in evidence that two empty corn sacks were found lying at the feet of the entrapped individual. The decision of the magistrate was that there was no proof that the prisoner had stolen any corn, and he to being caught in a steel trap, any gentleman had a perfect right to stick his hand in one if he felt inclined to do so.

A CHILD BURNED ALIVE.—Mrs. Kate Williams, a widow lady, and her child, seven years old, were awakened at Gill's Hotel, in Chicago, early Tuesday morning, by the roaring and hissing of the flames that were consuming the building. Seizing the child, Mrs. Williams attempted to gain the window with it through the dense smoke. Just as she reached it, her strength being nearly exhausted, she dropped her child. At the same moment the crowd in the street shouted to her to jump, and, terrified, she sprang from the window. A ladder was procured, with the intention of rescuing the child, but it was deemed unsafe to attempt it. The child appeared at the window below. The mother's heart-rending accents urged those around her to save her boy, but it was too late—he perished in the flames.

A NATURAL SCALD.—Charles H. Kilgore, of the Empire Market, who resides on the Hot Spring Ranch, near Markleville, is materially assisted in his slaughtering operations by nature, who furnishes him an abundance of hot water—from temperate to boiling heat, so that when he kills a hog he has to merely scald the carcass into one of the basins formed by the hottest spring, in which it is nicely scalded. No time is lost waiting for water to heat. Mr. Kilgore has hot and cold water conducted from different springs into her kitchen; so that she, too, has her household duties much lightened by the provisions of nature.—*Alpine Chronicle.*

THE oldest stove, probably, in the United States, is one which warms the hall of Virginia's capitol, in Richmond. It was made in England, and sent to Virginia in 1770, and warmed the House of Burgesses for sixty years before it was removed to its present location, where it has been for thirty years. It has survived three British monarchs; has been contemporaneous with four kingly monarchies; two republics, and two imperial governments of France. The great Republic of America has been torn by intestine strife, the breaches partly healed, and still the old stove remains unmoved in the midst of all.

WEDNESDAY MORNING, NOV. 7th.

ENERGY OR LETHARGY?—The early extension of the Pacific Railroad to Cisco will obviate the necessity of a longer continuance of any considerable number of business houses at Alta. In a very short time that seat of discord, and prolific source of criminal actions will "vanish from our gaze" and those of our citizens who had temporarily located there will "return to their first love." Within a brief period the division of freight and travel for this vicinity will cease, it will all be concentrated at our Dutch Flat depot and our town will assume her proper and relative position as a center of trade and travel. Our position and resources are such that, if backed by a fair degree of enterprise and business management, Dutch Flat may readily become the most important point on the line of the Railroad between Sacramento and the summit. This end can only be accomplished, however, by the prompt display of energy and activity on the part of our citizens. The connection of the Forest Hill and Iowa Hill "divides" with Nevada and Grass Valley, via Dutch Flat, by a free turnpike, would add immensely to the wealth and business prosperity of our town, while the enterprise would be fraught with great advantages to the communities at either terminus, and of intermediate points, as well. By consultation with competent judges we are satisfied that the above scheme is entirely practicable—that a good grade can be established and a fine road built to connect the points named, for a comparatively small sum, considering the benefits to accrue. We would suggest to our business men to consider:

1st. The benefits likely to accrue to our town from the construction of such a road, arising from increased population, increase of business and addition to the value of property.

2d. The probable cost and the proportion of the cost that the other communities interested would be likely to meet.

We are satisfied that a consideration of these questions in connection with a road absolutely free, will convince that the project would pay hugely. Some may consider the question as to how a free road is to be maintained in good order, a stumbling block. On this point we would suggest that the subscribers to the project should incorporate and reserve the privilege of collecting tolls from all stages, teamsters or other travelers on the road who failed to unite in an association for defraying the expenses for repairs, necessary to be raised, over and above the amount which the several Road Supervisors would expend. If our business men agree with us in regarding this scheme practicable, or at least worthy of consideration, it seems that Dutch Flat, being the most directly and generally interested, should take the initiative. A meeting should be held, the matter carefully weighed, a committee appointed to confer with the citizens of the other places interested, and the feasibility of the project tested. Business men of Dutch Flat, we conjure you to awake from your lethargy, shake off the dew-drops that glisten on your garments and manifest some slight modicum of the energy which would characterize the citizens of a town in the Atlantic States at all similarly circumstanced and this road will be an accomplished fact.

CONSULT YOUR INTEREST.—A careful perusal of our advertising columns will amply repay for the time and trouble. By this course our readers will not only be informed where they can have their wants supplied, but can also satisfy themselves who are and who are not disposed to "live and let live." We imagine that all will perceive and appreciate the pertinency and propriety of this inquiry. We have been taught to regard the printing business as among the legitimate branches of trade, and the location of a newspaper in a town no mean adjunct, but one calculated to stimulate the prosperity of the town and the surrounding country. All other things being equal, we consider those who encourage ours as well as other branches of home industry are entitled to a preference over those who pursue a less liberal course. (To be continued as circumstances may seem to require.)

MINERS AND HEADS OF FAMILIES!—Read the advertisement of Geo. D. Aldrich in another column. Mr. Aldrich has one of the most complete assortments of miners and family supplies to be found in the mountains. He enjoys unequalled facilities for purchasing at fair rates, has had long experience in his business, has the means to take every advantage of the market and pledges himself to deliver goods at all reasonable distances at the lowest living advance on cost and carriage. Give him a call! Try him and you will never regret it.

PROTECTORATE.—Max has abdicated and our Government is about to establish a protectorate in Mexico, conformably to a late suggestion in our paper. We (the mountain) wouldn't go to Johnson (Mahomet) consequently Mahomet came to our mountain. Don't you see the merit of firmness? Stand firm, Brother Avery!

BESET BY FURIES.

As we anticipated when penning it, the article in our issue of last Saturday on the Fenian Imbroglio has stirred up a hornet's nest. Prompted purely by anticipations of such results, we purposely left a wide margin for "come-back," and didn't near exhaust the subject. Our "feeler" has accomplished the objects for which it was intended, by drawing out the opinions of the advocates of the Canadian raids, and the blood-and-thunder gentry who would lay waste the provinces and demolish the Mother Country at the drop of a hat, unless the pious McMahon and repertorial Lynch are released *molens solens*, fully forgiven, petted and applauded. The discussions which have grown out of our innocent article have evolved an instructive and somewhat amusing variety of views on the Fenian question.

Straight-out rebels sympathize with the Fenian movement, prompted by hatred of England for withholding anticipated recognition and aid to the "Lost Cause." Copperheads sympathize from habitual and chronic wrong-headedness. Johnsonians express sympathy because they are hopeless of support from clear-headed native Americans, and entertain a glimmering hope of securing Irish supporters for their failing cause by virtue of such expression. The few Radicals who express disapprobation of our position are either controlled by rankling recollections of the Alabama and Shenandoah doings of English-Southern-sympathizers, or of the sympathy manifested for the St. Alban's raiders by some of the Canadian authorities. Recognizing the latter as the only one of the classes named, whose political leanings entitle them to be considered reasoning beings or capable of appreciating an argument founded upon principles of justice, we give the two former the silent go-by, and devote our attention to what we consider misconceptions of the issue, on the part of our radical confederates.

Divesting ourselves, if possible, of the Yankee hereditary prejudice against England and everything English—casting behind us all spiteful recollections of the past—stripping the question of all sophistical surroundings, and examining the present aspect of the Fenian trouble precisely as it is, the only legitimate grounds on which we can advocate the interference of our Government in behalf of Fenian raiders convicted and sentenced by Canadian courts, in compliance with and after due form of Canadian law, rests on the theory: That their offenses are purely political; that they are American citizens and as such entitled to the full protection of their Government, and particularly a special and strong plea for the magnanimous leniency proverbially due to offenses of a purely political nature. Another theory is, that these men are engaged in a revolution to free their native land from the yoke of English oppression, and as such entitled to our sympathies to the extent that our Government should invoke and practice the "neutrality" rules established and practiced by England towards us during our recent internecine troubles. As to the first of these theories: it is palpable that, if these men, as American citizens entitled to governmental protection, have been subjected to political grievances, they should have relied on their government to right them—should have struck as American soldiers, under the American flag, in the name of outraged American citizenship, in which case we imagine that every American would have demanded, and every Christian nation under the sun would have united with ours in assuring their security from death by the halter.

As to the second theory: we are firmly of the opinion that the result of a fair submission to the resident population of Ireland, of the question of a revolutionary dissolution of the union with the British government, would be extremely problematical. We are confident that such submission would exhibit an array of the unanimous Protestant vote; a considerable portion of the better educated Catholics, and the bulk of the land and property holders, irrespective of religious or party tests, against even a peaceful, much less a revolutionary, bloody and doubtful attempt at dissolution. Any one at all conversant with Irish history is aware that a large majority of the property tenures of that country are traceable by a direct chain to titles vested by virtue of the spoliation acts of William of Orange. Fenian predominance implies a reversal—an expungement of the spoliation acts and decrees, hence it would be wild to suppose that any considerable number of solvent property holders would favor Fenianism. It is also well known that human nature is incapable of more bitter and implacable hostility than that existing, and transmitted from father to son, between the Protestants and Catholics of Ireland. Fenian success involves Irish Catholic supremacy, and which the Protestants of Ireland would prefer any other possible alliance or protectorate, and they would resist such supremacy at any cost, even that of extermination.

Apart from these considerations of Irish divisions on the soil of Ireland; of the probability of civil war and Protestant extermination as legitimate fruits of Fenian success, the idea that the subjugation or desolation of Canada will accelerate Irish independence is insane. On this and the American partisanship involved in a discussion of Fenianism we may treat hereafter—our space forbids it at present.

TELEGRAPHIC DISPATCHES.

SPECIAL TO THE SEMI-WEEKLY ENQUIRER.

The following is per the Atlantic Cable, Rio Janeiro, Oct. 10, via London, Nov. 6th. Another battle took place at Fort Curugatty, Sept. 22d. Gunboats engaged the fort from the river while the allied storming forces attacked the Paraguayan troops in the midst of grape and musketry, and nobly captured the first portion of the fort. They failed, however, to take the second and were compelled to retire after having sustained a loss of five thousand men and having several of their gunboats disabled.

New York, Nov. 6. The Herald's city of Mexico correspondent says: Maximilian appointed Marshal Bazaine temporary Governor of Vera Cruz on the 21st ult. The ministry upon hearing of the appointment of Bazaine immediately resigned. An Austrian frigate at Vera Cruz was awaiting Maximilian's arrival to depart for Europe.

The Herald's Toronto special dispatch says: Another raid was expected from Buffalo on Saturday night during the Fenian demonstration on the occasion of the arrival of the captured arms recently returned by order of President Johnson. Mass meetings of the Brotherhood were held at Buffalo and Indianapolis on Saturday night in which retaliatory measures were threatened in case of the execution of Lynch and McMahon. New trials for Lynch and McMahon are to be applied for during this week.

The Tribune's special says that the Tenth Regiment just out from England by the steamer Pennsylvania arrived yesterday. Half of the Regiment will go immediately to Ottawa. There are now in British America, about fifteen thousand troops of the Regular Army, and a large number of militia are in Canada.

San Francisco, Nov. 6, 9 P. M. The following is a summary of a dispatch which appears in the Times this evening: "New York, midnight: The General Agent of the Associated Press has published a letter addressed to all agents and editors, in which he pronounces the assertion made by Prime and Beach in their circular of the 21st inst. as an infamous falsehood. He says he was not discharged at all; his resignation has been in the hands of the Executive Committee for several weeks, and whether accepted or not it is his intention to retire at the end of this week. Craig has for some time past headed a movement to remodel and improve the Association, the results of which will largely promote the interests of all papers outside the city."

The steamer Moses Taylor is now over due, owing to the severe storms on the Atlantic side. She will probably be in within a day or two as the San Francisco, with which she connects on the other hand, has been heard from on her return trip to New York. The latter steamer was compelled to put into Charleston probably for a supply of coal.

The parties connected with the Flag newspaper indicted for publishing a libel on W. C. Balston, of the Bank of California, have been allowed until Monday next to plead.

A fire broke out in the bay and feed store of Riley & Vest on Market street, between first and second streets, adjoining the National Flour Mills, this afternoon. It originated among some straw in the rear of the feed store, and is supposed to have been ignited by children. The damage will reach ten thousand dollars.

SOCIETIES. We have lots of organizations in the town, and some of them doing a thriving business. Among them I will mention "The Oriental Order of Ancient Humility" and Independent Order of Good Templars. The former, in the early part of the season, was in a very flourishing condition, but during the latter part, for the want of proper material to work with, has remained inactive. With the rainy season, though, it is expected to revive and re-commence its charming work of humiliation.

Our Debating Club has commenced again, with a large number of topics for discussion during the long evenings of winter. They begin very strong and evidently mean talk.

MINES AND MINING.

Then too, our miners are being aroused to activity, especially up Roach Hill and Monona Flat way. The Evening Star Co. is hard at work, fitting up for winter. The Billington claim is also undergoing repairs, such as will warrant them a productive season. The old Dutch and Wheeler claims expect to lay idle through the winter, because the ditches are in such condition that they cannot be used to conduct water to them at present. The old Pacific is being successfully worked by Wilcox & Smiley and pays from eight to ten dollars per day to the land. The Columbus, adjoining the above, is being opened by a new company, with expectation of large returns. The Shelby Co. have a large dump of pay dirt, which has been taken out during the summer, and from the prospects, will yield a handsome dividend when washed, which the continuation of yesterday and to-day's rain will soon enable them to do. Our old townsman O. K. Levings is at work opening the old Stockton and San Francisco tunnel at Monona Flat, and says that a cement mill will be built for the mine in the Spring. I hope it is true, for the boys have rich and hard ground there, and if a mill there should prove successful, others would soon be built, which would give new life to the place. The Mohawk Co. is pushing forward its prospect tunnel with vigor, and the Monadnock Co. will soon begin work in its incline, and under its present President, Mr. Shaw, the company may feel assured that the work of sinking will proceed with dispatch.

At some future time I will inform you of the success of these mines. A MINER.

A BRUTAL MURDER.—Mr. Philip Huesner, formerly of this place, has latterly kept a saloon and restaurant at Cisco. On Sunday evening last a German named Frank Steinman, entered Mr. Huesner's place and assumed a boisterous and belligerent attitude, using obscene and abusive language, making violent threats, breaking crockery, glassware, etc., and demanding himself in a brutal manner. Huesner, a much smaller man than Steinman, and habitually mild, plead with the latter to leave the premises, taking him by the arm in a friendly manner to lead him out, when Steinman turned upon him and stabbed him several times in the side, from the effects of which Huesner died on Monday night. As Mr. Huesner was universally esteemed in our community, this event has caused a deep feeling of grief and indignation, especially among his countrymen. Steinman was arrested by Constable Greely and brought before Justice Aubury, of this place, yesterday, when, through his counsel Mr. Melburn, he waived an examination and was sent, heavily manacled, to Auburn. Huesner leaves a wife and three children.

RETURNED TO STAY.—Our old townsman, though youthful friend, Geo. M. Halsey, returned to this place last week, after a brief visit to his old home in Buffalo, New York. He was accompanied on his return trip by his mother and three sisters, who will prove an agreeable accession to Dutch Flat society. Industrious, steady, well-disposed and in every way a model young man, George has been sadly missed during his absence and there are few who might not feel proud of the welcome which greeted his return. George says that he saw many fine sights East, including beautiful and sweet voiced girls, but never ceased to yearn for the sparkling light of the old forge and the music of his faithful sledge and anvil.

LIVELY.—Our town has presented an unusually lively appearance for some time back. The miners of this vicinity and Gold Run are making active preparations for winter work, clearing ground, extending sluices, drawing in block-riffles by the cord, extending old and putting in new iron hydraulic pipes, etc. The merchants are filling every available inch of their stores and warehouses with winter stocks. Mechanics are working short-handed and long hours, every department of trade and every branch of industry is prosperous. All who are willing to work have plenty to do at remunerative wages.

THE WET SEASON.—Our citizens were on Saturday morning last, informed by a steady monotonous down-pouring characteristic of California, that the "rainy season" had actually set in, and for good. The rain continued to fall with but slight intermission until Monday afternoon and the sky is still overcast and lowering. Snow, to the depth of six inches, fell on the summit, but travel has not been impeded. A sleigh express came through from Meadow Lake to Cisco on Sunday. The results of the storm may be summed up as a wholesome libation to parched and thirsty mother Earth, an effectual laying of the dust and nobody hurt.

STOLE A PIPE.—Ting Gen, Esq., of Canton, probably actuated by a desire to be "all same Melican man," took a decided fancy to a meerschaum pipe, the property of Mr. F. M. Schnable of Gold Run. The civilized taste of Ting Gen in this particular was superior to his means of gratifying it, but the order of his desires got the better of the pious confucian doctrines taught him in childhood, and in an evil hour for the house of Gen he purloined it. He was arrested and brought before Justice Aubury yesterday, trial postponed till the 15th, bail fixed at \$500—all for a \$7 pipe.

DEAD.—Masters, who was shot at Alta by McGee, died on Saturday morning last and was buried in this place on Sunday.

BARON de Castro who, with the aid of five priests and a Bishop failed to get married, left here a few days since in about as great a hurry as he did Oakland,

THE PEOPLE'S FRIEND.—PERRY DAVIS' Vegetable Pain Killer, the greatest Family Medicine of the Age. Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nervous sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic, Asiatic cholera, diarrhoea, and dysentery. APPLIED INTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swollen joints, ring-worms and tetter, broken breasts, fretted feet and chilblains, tooth-ache, pains in the face, neuralgia and rheumatism. It is a sure remedy for Ague and Chills and Fever.

S.T-1860-X.

"JES SO!" "EXACTLY!"—Solon Shingle said: they were there "every time." If he felt "awful" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS will cure Nervous Headache, Cold Extremities and Feverish Lips, Sour Stomach and Fetid Breath, Flatulency and Indigestion, Nervous Affections, Excessive Fatigue and Short Breath, Pain over the Eyes, Mental Depression, Prostration; Great Weakness, Sallow Complexion, Weak Bowels, &c., which are evidences of Liver Complaint and Dyspepsia. After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid nightmare diseases the world has ever produced. Within one year, over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effective tonic and agreeable stimulant, suited to all conditions of life. The report that it relies upon mineral substances for its active properties are wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitations try to come as near our name and style as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

It restores the hair upon prematurely bald heads. This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

MUSTANG LINIMENT.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment. For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure. For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment. For spavined horses, the poll evil, ringbone andweeney, the Mexican Mustang Liniment never fails. For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with. In lifting the kettle from the fire, it tipped and scalded me terribly. The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 430 Broad str., Phil.

Mr. S. Litch, of Hide Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment I have sold him for \$150. Your Liniment is doing wonders up here." Any Druggist will procure the genuine if you insist you will have no other.

HOPES FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1880. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor, the sick and feeble can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—Dr. W. K. DOWNEY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens, and its rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Downey, who in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by deflation of others to establish his reputation or ruin the fame of his friends. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His office is on Sacramento street, opposite the Pacific Mail Steamship office.—News

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggill is the founder of a new Medical System! The quantarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most violent of ills with a box or so of his wonderful and all-healing Pills. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Dr. Maggill's Pills at St. Louis have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggill's Pills are not of the class that are swallowed by the dozen, and of which every box full takes creates an absolute necessity for another. One or two of Maggill's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the system generally healthy. There is no gripping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggill's Pills. In fact, it is here announced that MAGGILL'S PILLS, DRUGS AND REMEDIES, PILLS cure where all others fail. Which for Burns, Scalds, Childbirth, Cuts and all abrasions of the skin MAGGILL'S PILLS are infallible. Sold by J. MAGGILL, 11 Pine street, New York. R. H. McDONALD & Co., San Francisco, and all Druggists, at 25 cts. per box. Jy 12m

THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y.
